Objective

First-year electrical engineering student at Georgia Tech with hands-on robotics, PCB design, CAD and programming experience through HyTech Racing, FTC competition and Science Olympiad. Seeking an internship in robotics or hardware engineering for summer 2027.

Education

Georgia Institute of Technology, Atlanta, GA *August 2026 to present*
Bachelor of Science in Electrical Engineering. Expected graduation May 2030.

Quince Orchard High School, Gaithersburg, MD *Graduated June 2026*
GPA 4.0 unweighted, 4.88 weighted. National Honor Society, National Science Honor Society (President).

Skills

Programming: Python, Java, Arduino C++ (PlatformIO)
Hardware: PCB design in Altium, CAD modeling, 3D printing and prototyping, FTC robot design and assembly
Software: Altium Designer, Onshape, Fusion 360, Microsoft Office, Google Workspace
Communication: Public speaking, technical presentations, team leadership, community outreach
Languages: English (fluent), Mandarin Chinese (bilingual)

Projects

HyTech Racing, Georgia Tech Formula SAE electric team *2026 to present*
Electrical team member
- Designed a keychain PCB in Altium, from schematic through layout, to pass electrical onboarding.
- Wrote PlatformIO firmware for a temperature-sensing light; now designing a brake light system for the car.

FTC Robotics, Quince Orchard HS Robotics Club *2022 to 2026*
Team Lead and Mentor. Directed the design, coding and assembly of a FIRST Tech Challenge robot, reaching the regional semifinals.
- Used Onshape and Fusion 360 to create CAD models and simulate prototypes for mechanical optimization.
- Fabricated custom 3D-printed parts to FTC specifications, helping the team win the THINK Engineering Notebook Award.

Robot Tour, Science Olympiad, Quince Orchard HS *2024 to 2026*
Competitor. Designed, built and coded a robot with a partner to navigate randomized obstacle courses autonomously and finish near a target time.
- Won 1st place at the UMBC tournament and placed 7th at the Maryland state tournament.
- Wrote stabilization and self-correction code to fix a drifting issue; collaborated on the design for maneuverability.

Experience

Life Time, Gaithersburg, MD *2025 to 2026*
Swim Instructor
- Taught a group of three children with individualized lesson plans tailored to each swimmer's skill level.
- Tracked weekly progress so students met targeted milestones and mastered core techniques.

Hope Chinese School, Gaithersburg, MD *2023 to 2026*
Teacher's Assistant
- Graded classwork and homework, giving timely and constructive feedback to students.
- Gave one-on-one support to students who needed extra help, leading to noticeable academic improvement.

Leadership and activities

National Science Honor Society, Outreach Manager then President *2024 to 2026*
- Organized STEM outreach, including elementary and middle school STEM nights and a blood drive.
- Led chapter meetings and coordinated logistics for events engaging over 80 students.

Model United Nations Club, Co-Founder and Co-President *2023 to 2026*
- Co-founded the club, growing it to 40+ members and raising over $4,000 through fundraising.
- Attended three regional conferences; won Best Position Paper across four delegates.
